SUBJECT INDEX*

A

Abdominal cavity
Combination of diaphragmatic plication with major abdominal surgery in patients with phrenic nerve palsy (Smyrniotis et al). 2005;137:243-5

Abdominal wall
Progressive fascial wound failure impairs subsequent abdominal wall repairs: a new animal model of incisional hernia formation (DuBay et al). 2005;137:463-71

Ablation; *see* Catheter ablation

ABO blood group system
Conquering absolute contraindications to transplantation: positive-crossmatch and ABO-incompatible kidney transplantation (Dean et al). 2005;137:269-73

Acidosis
Carbon dioxide pneumoperitoneum-mediated attenuation of the inflammatory response is independent of systemic acidosis (Hanly et al). 2005;137:559-66

Adenocarcinoma
Surgical outcome in patients with gastric adenocarcinoma in the upper third of the stomach (Kunisaki et al). 2005;137:165-71

Adenoma
Circulating tumor cells detected by reverse transcription polymerase chain reaction for carcinoembryonic antigen mRNA: distinguishing follicular thyroid carcinoma from adenoma (Sato et al). 2005;137:552-8

Adenoviridae
Macrophage ablation attenuates adenoviral vector-induced pancreatitis (Shifrin et al). 2005;137:545-51
Oncolytic adenoviral therapy in gallbladder carcinoma (Tekant et al). 2005;137:527-35

Adhesions
Icodextrin reduces postoperative adhesion formation in rats without affecting peritoneal metastasis (van den Tol et al). 2005;137:348-54

Adrenal cortex hormones
Randomized prospective trial of early steroid withdrawal compared with low-dose steroids in renal transplant recipients using serial protocol biopsies to assess efficacy and safety (Laftavi et al). 2005;137:364-71

Adrenomedullin; *see* Vasodilator agents

Aldosterone
Induction of 11-hydroxysteroid dehydrogenase type 2 and hyperaldosteronism are essential for enhanced sodium absorption after total colectomy in rats (Sato et al). 2005;137:75-84

Anastomosis, Roux-en-Y
Superior mesenteric artery syndrome after laparoscopic Roux-en-Y gastric bypass (Schroeppel et al). 2005;137:383-5

Anastomosis, surgical
Changes of the extracellular matrix as a risk factor for anastomotic leakage after large bowel surgery (Stumpf et al). 2005;137:229-34
Long-term outcomes of a neo-anus with a pudendal nerve anastomosis contemporaneously reconstructed with an abdominoperineal excision of the rectum (Sato et al). 2005;137:8-15
Salvage of ileal pouch-anal anastomosis by a reversed jejunal segment (Loriau et al). 2005;137:111-3

Aneurysm, false
Management and outcome of hemorrhage due to arterial pseudoaneurysms in pancreatitis (Bergert et al). 2005; 137:323-8

Angiogenesis; *see* Neovascularization, physiologic

Angiogenesis inhibitors
Decrease in circulating anti-angiogenic factors (angiostatin and endostatin) after surgical removal of primary colorectal carcinoma coincides with increased metabolic activity of liver metastases (Peeters et al). 2005;137:246-9

Angiostatins
Decrease in circulating anti-angiogenic factors (angiostatin and endostatin) after surgical removal of primary colorectal carcinoma coincides with increased metabolic activity of liver metastases (Peeters et al). 2005;137:246-9

Antilymphocyte serums
Randomized prospective trial of early steroid withdrawal compared with low-dose steroids in renal transplant recipients using serial protocol biopsies to assess efficacy and safety (Laftavi et al). 2005;137:364-71

Anus
Long-term outcomes of a neo-anus with a pudendal nerve anastomosis contemporaneously reconstructed with an abdominoperineal excision of the rectum (Sato et al). 2005;137:8-15

Aortic aneurysm, abdominal
Endovascular abdominal aortic aneurysm repair is more profitable than open repair based on contribution margin per day (Rosenberg et al). 2005;137:285-92
MMP-12 has a role in abdominal aortic aneurysms in mice (Longo et al). 2005;137:457-62
Relationship between iNOS expression and aortic cell proliferation and apoptosis in an elastase-induced model of aorta aneurysm and the effect of 1400 W administration (Sigala et al). 2005;137:436-46

Aphasia
Reflux, dysphagia, and gas bloat after laparoscopic fundoplication in patients with incidentally discovered hiatal hernia and in a control group (Triponez et al). 2005;137:235-42

Apoptosis
Apoptosis inhibition plays a greater role than necrosis inhibition in decreasing bacterial translocation in experimental intestinal transplantation (Azuara et al). 2005;137:85-91
Relationship between iNOS expression and aortic cell proliferation and apoptosis in an elastase-induced model of aorta aneurysm and the effect of 1400 W administration (Sigala et al). 2005;137:436-46

Appendicitis
Huge cystic communicating duplication of the right colon with perforated appendicitis (Ohno et al). 2005;137:477-9

Aspiration
Treatment of acute mesenteric thrombosis/ischemia by transcatheter thromboaspiration (Hladík et al). 2005; 137:122-3 (Letter)

B

Bacterial infections
Lysis-deficient bacteriophage therapy decreases endotoxin and inflammatory mediator release and improves survival in a murine peritonitis model (Matsuda et al). 2005;137:639-46

Bacterial translocation
Apoptosis inhibition plays a greater role than necrosis inhibition in decreasing bacterial translocation in experimental intestinal transplantation (Azuara et al). 2005; 137:85-91

Bacteriophages
Lysis-deficient bacteriophage therapy decreases endotoxin and inflammatory mediator release and improves survival in a murine peritonitis model (Matsuda et al). 2005;137:639-46

Bcl-2 proteins; *see* Proto-oncogene proteins c-bcl-2

Bile duct diseases
Benign hilar biliary strictures stented with metallic stents can be resected by using an oncologic approach (Vibert et al). 2005;137:506-10

Bile duct neoplasms
Prognostic factors of surgical resection in middle and distal bile duct cancer: an analysis of 55 patients concerning the significance of ductal and radial margins (Sakamoto et al). 2005;137:396-402

Biliary tract neoplasms
One hundred consecutive hepatobiliary resections for biliary hilar malignancy: preoperative blood donation, blood loss, transfusion, and outcome (Nagino et al). 2005;137:148-55
Successful complete resection of biliary cystadenocarcinoma after percutaneous transhepatic portal embolization (Murakami et al). 2005;137:577-9

Binding proteins; *see* Carrier proteins

Biopsy, needle
Breast mass in a 3-year-old girl: differentiation of secretory carcinoma versus abnormal thelarche by fine needle aspiration biopsy (Noh et al). 2005;137:109-10

Blood
Influence of portal blood on the development of systemic inflammation associated with experimental acute pancreatitis (Hoyos et al). 2005;137:186-91

Blood loss, surgical
One hundred consecutive hepatobiliary resections for biliary hilar malignancy: preoperative blood donation, blood loss, transfusion, and outcome (Nagino et al). 2005;137:148-55

Blood transfusion
One hundred consecutive hepatobiliary resections for biliary hilar malignancy: preoperative blood donation, blood loss, transfusion, and outcome (Nagino et al). 2005;137:148-55

Breast neoplasms
Breast mass in a 3-year-old girl: differentiation of secretory carcinoma versus abnormal thelarche by fine needle aspiration biopsy (Noh et al). 2005;137:109-10
Pleomorphic hyalinizing angiectatic tumor of soft parts (Lee et al). 2005;137:119-21

Burns
Sex hormones modulate distant organ injury in both a trauma/hemorrhagic shock model and a burn model (Ananthakrishnan et al). 2005;137:56-65

C

Carbon dioxide
Carbon dioxide pneumoperitoneum-mediated attenuation of the inflammatory response is independent of systemic acidosis (Hanly et al). 2005;137:559-66

Carcinoembryonic antigen
Circulating tumor cells detected by reverse transcription polymerase chain reaction for carcinoembryonic antigen mRNA: distinguishing follicular thyroid carcinoma from adenoma (Sato et al). 2005;137:552-8

Carcinoid tumor
Surgical treatment of peritoneal carcinomatosis from well-differentiated digestive endocrine carcinomas (Elias et al). 2005;137:411-6

Carcinoma, adenoid cystic
Video-assisted thoracic tracheoplasty for adenoid cystic carcinoma of the mediastinal trachea (Nakanishi and Kuruma). 2005;137:250-2
Video-assisted tracheal resection-a long walk for no slide (Wood). 2005;137:253-4 (Commentary)

Carcinoma, hepatocellular
Hepatectomy for hepatocellular carcinoma with major portal or hepatic vein invasion: results of a multicenter study (Pawlik et al). 2005;137:403-10
Prognostic benefit of selective portal vein occlusion during hepatic resection for hepatocellular carcinoma (Makino et al). 2005;137:626-31
Re: Prognostic significance of Bcl-xL in human hepatocellular carcinoma (Kountouras et al). 2005;137:265-6 (Letter)

The role of median sternotomy in resections for large hepatocellular carcinomas (Nagano et al). 2005;137:104-8
Two-step hepatectomy using right portal vein ligation for multiple bilobar hepatocellular carcinomas arising in injured liver (Wakai et al). 2005;137:124 (Letter)

Carcinoma, medullary
The familial medullary thyroid carcinoma-associated RET E768D mutation in a multiple endocrine neoplasia type 2A case (Aiello et al). 2005;137:574-6

Carcinoma, renal cell
Pancreatic renal cell carcinoma metastasis presenting with upper gastrointestinal bleeding (Pekmezci et al). 2005;137:386-7

Carcinoma, squamous cell
Reduced tumor vessel density and high expression of glucose transporter 1 suggest tumor hypoxia of squamous cell carcinoma of the esophagus surviving after radiotherapy (Doki et al). 2005;137:536-44

Cardiology
The giant and the gentleman, or I bet he kicks the dog (van Heerden). 2005;137:581-2

Cardiovascular diseases
Maintained normalization of cardiovascular dysfunction 5 years after parathyroidectomy in primary hyperparathyroidism (Nilsson et al). 2005;137:632-8

Carrier proteins
A novel approach to maintaining cardiovascular stability after hemorrhagic shock: beneficial effects of adrenomedullin and its binding protein (Wu et al). 2005;137:200-8

Surgery and chemotherapy for peritoneal carcinomatosis-more about selection and biology than treatment (Brennan). 2005;137:417-8 (Commentary)

Cholangiocarcinoma
Surgical management of recurrent intrahepatic cholangiocellular carcinoma after liver resection (Sotiropoulos et al). 2005;137:669-70 (Letter)

Cholangiopancreatography, endoscopic retrograde
Two-step treatment for complex cholecystocholedocholithiasis (Leandros et al). 2005;137:114-6

Cholecystectomy, laparoscopic
Two-step treatment for complex cholecystocholedocholithiasis (Leandros et al). 2005;137:114-6

Clinical competence
Assuring the reliability of resident performance appraisals: more items or more observations (Williams et al). 2005;137:141-7

Colectomy
Induction of 11-hydroxysteroid dehydrogenase type 2 and hyperaldosteronism are essential for enhanced sodium absorption after total colectomy in rats (Sato et al). 2005;137:75-84

Colon
Huge cystic communicating duplication of the right colon with perforated appendicitis (Ohno et al). 2005;137:477-9

Colonic pouches
Salvage of ileal pouch-anal anastomosis by a reversed jejunal segment (Loriau et al). 2005;137:111-3

Colorectal neoplasms
Decrease in circulating anti-angiogenic factors (angiostatin and endostatin) after surgical removal of primary colorectal carcinoma coincides with increased metabolic activity of liver metastases (Peeters et al). 2005;137:246-9
